Behavior Driven Summary

1

Recall Is Low But The Campaign Shows Potential To Connect With Viewers

Over one-in-five remember seeing any one xx ad. Respondents found the ads appealing, engaging and it encourage them to find out more about xx.

2

The Ads Work On Strategy To Communicate Collaboration & Connectivity

Viewers clearly understand the ads as promoting xx's connection capabilities and ability to facilitate collaboration and networking.

3

Exposure Lifts Brand Opinion, But The Ads Must Work To Drive Consideration

Two-thirds say their opinion of xx is much improved after seeing the ad. While there is a good base of those who will try the service, the same amount are undecided about it. Furthermore, most are not willing to talk about the service with other. .

4

Familiarity With Brand Is Driving Higher Response Among xx

While xx in both groups appreciate the advertisements, the higher awareness and familiarity with xx among xx is likely driving the difference between the two groups.

The Research Goal

Client A conducted research to understand the effectiveness of the advertising campaign for Brand X in the telecom industry.

Specifically, the research will inform:

- Lifts on brand and advertising awareness.
- Recall and response to the campaign advertisements.
- Campaign impact on consideration and recommendation for Brand X.

What We Did

To catch these validated shopper opinions, we used our “Out-of-Home” location technology solution.

We conducted an 8-minute survey of respondents within hours of a visit to an out-of-home ad location in order to gain, fresh, Point-of-Emotion insights.

Unexposed (Control)
Exposed (Test)

About MFour.

MFour introduced Surveys On The Go® in 2011.

As the nation's largest, highest-rated consumer panel, it tracks 10 million daily consumer journeys.

Clients use our panel to speak with any buyers they want—in-store, online, or on an app.

The result? Accurate data based on consumers' actions: and context on why they made them.

It's just better.
